Most pilots require aviation medical certificates. Some pilots, such as sports pilots and balloon pilots, aren't required to obtain an aviation medical certificate. The rest of us, however, need to pass an aviation medical exam to legally utilize the privileges of our pilot certificates.

Aspiring Pilots and the Aviation Medical Exam

Download Ebook 2009 Guide For Aviation Medical Examiners

These conditions are defined as “unable to meet the requirements for the medical certificate,” which is intentionally vague. As listed in the Guide for Aviation Medical Examiners, there are several absolutes that require grounding and FAA notification. For instance, cancer isn’t on this list, but it generally requires a special issuance.

AVIATION MEDICINE - South African Civil Aviation Authority

Below is a list of medical conditions that the FAA has labeled as disqualifying medical conditions. If you have one of these conditions, you'll want to do some research and speak to an aviation medical examiner or a pilot advocacy group like AOPA about your options before you fill out the medical application. Also, there's a good chance that other pilots have dealt with the same condition and ...

Aviation Medical Exam: Disqualifying Medical Conditions

Every commercial pilot’s license holder is obliged to have a Class-1 medical check every year. A commander holding an airline transport pilot’s licence (ATPL) and all pilots aged over 40 are obliged to have medical tests twice a year. For most people, the aviation medical exam is a piece of cake.
