Review your Android tablet's buttons. While most of what you do with your tablet will happen on-screen, there are a few physical buttons that you should be aware of: Volume - The two buttons on the left side of the tablet control the volume. The top button usually increases volume, while the bottom button usually decreases volume.

How to Use an Android Tablet (with Pictures) - wikiHow

Yes, your Android makes noise. Incoming calls ring; you hear music, alarms sound; and games go "beep," "bleep," and "blort." The Settings app is the place to go when the sound needs fine-tuning. Setting the volume The Volume key on the side of your Android sets the volume as sound is generated.
