Every sub-validation is carried out using general arguments about object-oriented framework design that are backed by the observations made and experiences gained in the case studies. The validation of the dissertation thesis follows from the sub-validations. 9.1 Thesis review and validation strategy

### **Dirk Riehle: Dissertation, Chapter 9: Thesis Validation**

Abstract. Since the first papers on “Aliasing in Object-Oriented Programming” appeared, since the Geneva Convention on Aliasing, since the developments in Ownership Types, in Separation Logic, and all the other developments related in this volume, two competing dynamics can be seen underlying the research in this area.
