Man Engine D26

To create an engine with a minimum 500 hp for use in a powerful standard tractor without articulated steering that complies with Tier 4 final and EU Stage IV exhaust emissions standards, the engineers at MAN based their designs on the D2676 power train for trucks, adapting this to meet the requirements of a tractor.

MAN D26 Fendt engine | Interesting Facts | MAN Engines

The new D2676 marine engine developed by MAN is based on the D26 engine, which has proven its worth in heavy-duty vehicles, and provides an optimal, compact, low-consumption engine with a low performance weight for use in boats. It not only meets the current exhaust gas standards, but is also equipped for future exhaust gas legislation.
