Project Gutenberg is a wonderful source of free ebooks – particularly for academic work. However, it uses US copyright law, which isn't universal; some books listed as public domain might still be in copyright in other countries. RightsDirect explains the situation in more detail.

The Social Roots Of Risk

The Social Roots of Risk argues against the widespread notion that cataclysmic occurrences are singular events, driven by forces beyond our control. Instead, Kathleen Tierney contends that disasters of all types—be they natural, technological, or economic—are rooted in common social and institutional sources.
