The Will to Improve: Governmentality, Development, and the ...

The Will to Improve is a rich description of governmental practices effected by national and international institutions and directed at systematic improvements for marginal populations. This ethnography details the way development strategies are deployed; in particular, Li analyzes the interactions between the different actors—villagers, development organizations and non-governmental organizations, government officials and institutions—that take place in the development encounter, as ...

The Will to Improve : Governmentality, Development, and ...

Governmentality, an expression originally formulated by the 20th-century French philosopher Michel Foucault, combines the terms government and rationality. Government in this sense refers to conduct, or an activity meant to shape, guide, or affect the conduct of people. Conduct takes on meaning beyond the form of leading and directing.
